

What happens at Wandin Yallock OSHC

Our OSHC service is a high-quality program, organised and run by our school (rather than an outside agency). Our team of friendly, professional and skilled educators build strong, positive relationships with students, where the focus is on providing fun, engaging activities, leading to safe and happy children who can explore and play.

The qualified educators running the program are part of our school's education support staff, which means that students are in a safe and familiar environment with adults they know. The OSHC team always strive to provide a fun, supportive and creative space to support students to thrive and achieve their full potential.

Activities available at OSHC include:

- Science experiments
- Role play
- Cooking
- Sports/outdoor play
- Construction
- Life skills
- And much more!
