

## 3/4/5M Class Newsletter No. 4

Thank you Leanne Mullins for offering to cover the Writer's Notebooks.

### Term 1 Dates:

10<sup>th</sup> March: Curriculum Day – students are not required at school

13<sup>th</sup> March: Labour Day Public holiday

17<sup>th</sup> March: Book Club novels should be complete

21<sup>st</sup> March: school photos

31<sup>st</sup> March: end term 1

### Reminders

- Homework is due on Thursday this week
- Some families still need to return 2016 reports
- Please see me to organise a parent/teacher/student conference if you have not yet done so
- Please consider being a driver for the YVFM 'Schools In' radio program.
- The Indigenous Dance workshop will be scheduled for a later date

**HOMEWORK: Well done to so many students who handed in well organised homework books last week, with quite a few grade 4s even having a go at the grade 5 maths! It is important that grade 5 students get into a good routine and attempt the maths revision. It is important for every student to have their homework book and diary/reading record at school every Friday.**

### **This week:**

1. Most homework books look fantastic! Well done to those students who have decorated them so creatively. If you haven't already, show off your creativity and **cover your homework book** with photos, magazine pictures, drawings or computer designs. Please cover the book in plastic contact to protect it.
2. **Reading:** Book Club novels must be completed by Friday 17<sup>th</sup> March when discussions and activities will take place. Continue to read every night and sign diaries/record books.
  - Grade 3: 10-15 minutes (but 20 is better!) every day.
  - Grade 4/5: 20 minutes at least 4 time each week. (This can be weekends)
  - Reading aloud for part of that time is strongly recommended.
3. **Spelling:** Use Look Cover Write Check to practice words for the test on Thursday.
4. **G5 Maths Revision** – Compulsory for grade 5s. Optional for 3/4s.

## Maths Revision

1. Negative Numbers You may like to rule a number line down the side of the page.

- a)  $-3 + 8 = \underline{\quad}$     b)  $5 - 7 = \underline{\quad}$     c)  $-6 - 4 = \underline{\quad}$     d)  $2 - 2 = \underline{\quad}$   
e)  $0 - 12 = \underline{\quad}$     f)  $6 - 12 = \underline{\quad}$     g)  $-7 + 3 - 2 = \underline{\quad}$     h)  $5 - 9 + 4 = \underline{\quad}$

2. Add these decimal numbers It will help you to set them out vertically in your homework book. Remember to line the decimal point up.

- a)  $2.4 + 3.5 = \underline{\quad}$     b)  $4.6 + 7.2 = \underline{\quad}$     c)  $5.3 + 2.6 = \underline{\quad}$     d)  $12.5 + 6.2 = \underline{\quad}$   
e)  $3.7 + 2.5 = \underline{\quad}$     f)  $6.5 + 3.9 = \underline{\quad}$     g)  $4.13 + 8.09 = \underline{\quad}$     h)  $.8 + 2.4 = \underline{\quad}$

3. Find the perimeter of these shapes

P =           

P =           

P =           

4. Convert these measurements A ruler with millimetres will help

- a)  $1\text{cm} = \underline{\quad}\text{mm}$     b)  $5\text{cm} = \underline{\quad}\text{mm}$     c)  $15\text{cm} = \underline{\quad}\text{mm}$     d)  $26\text{cm} = \underline{\quad}\text{mm}$   
e)  $25\text{mm} = 2.5\text{cm}$     f)  $38\text{mm} = \underline{\quad}\text{cm}$     g)  $150\text{mm} = \underline{\quad}\text{cm}$     h)  $238\text{mm} = \underline{\quad}\text{cm}$

5. Do you have any questions or comments about this maths work?
